

Drupal/PHP Developer

Charleston, SC

The Baldwin Group, Inc. (TBG) (www.tbgroupconsultants.com) seeks a talented Drupal/PHP Developer to join our web development team and help us build innovative and visually appealing government web sites. This position will support our contract with the NOAA Coastal Services Center (www.csc.noaa.gov) in Charleston, SC. The successful candidate will work as part of our software development team to create exceptional web sites that communicate complex information in a simple, informative way. We are looking for someone with exceptional technical skills who also enjoys working in a team environment. The ideal candidate will be comfortable building custom PHP applications and customizing or developing custom Drupal modules.

Responsibilities

- Work closely with UI designer to build Drupal themes
- Ensure that the UI works with the backend
- Design, implement, and test custom Drupal modules
- Continuously improve development and release processes

Requirements

- Degree in Computer Science or equivalent experience
- Expert knowledge using and administering Drupal, including module and theme development
- Must be comfortable developing and extending Drupal modules with PHP
- Knowledgeable of Drupal best practices
- 5+ years hand coding experience in HTML, CSS, JavaScript/jQuery, AJAX, PHP
- Experience with MySQL, SQL
- Experience in code and site migration
- Mobile/responsive design experience preferred
